

Absence

... Where are you ?

Absence from us
Absence from me too
Absence from these hours
We could not spend together
It cannot happen anymore

Chorus

We could not spend together
It cannot happen anymore
We could not spend together
It cannot happen anymore

Chorus

We could not spend together
It cannot happen anymore
We could not spend together
It cannot happen anymore

Too Many Lies

The sun is shining behind me
Behind his black car in front of him
They said to me that it was a crash
They told me that you'd disappeared
Too many lies, too many lies to reassure
Too many lies, too many lies to reassure

Today I try to forget it
The sun is shining for my son
They said to me that it was a crash
They told me that you'd disappeared
Too many lies, too many lies to reassure
Too many lies, too many lies to reassure

Chorus :

And I thought a long time
That you could come back
That you had fled somewhere
And I thought a long time
That you could come back
That you had fled somewhere

That you had fled somewhere (4x)

Just too many lies (6x)

Too many lies, too many lies to reassure
Too many lies, too many lies to reassure

Chorus

If You Knew

If you knew what I think about you
You couldn't understand it
Since father is dead

If you knew what I think about you
You couldn't integrate it
In your lost brain
In your lost brain

Chorus

If you knew what I think about you
You couldn't understand it
In the middle of your pride
If you knew what I think about you
You couldn't integrate it

You're on the bad side
On the bad side
You're on the bad side
On the bad side

Chorus

You believe yourself so higher
You believe yourself so higher

If you knew what I think about you
You couldn't understand it
If you knew what I think about you
You couldn't integrate it

Oh I won't tell you
If you knew
I won't tell you
If you knew

If you knew what I think about you
If you knew what I think about you
If you knew what I think about you
If you knew what I think about you

Chorus

A Gorgeous Land

This year is not like the others
'Cos we're no longer together
Today is not like yesterday
Where have you gone? I can't say

Chorus:

One day you left, one day
Without saying goodbye, anyway
One way you found, one way
Without any sound
I hope it's a gorgeous land

The hours seem empty now
You seem a phantom now
My hopes flew away at the end
I'll overcome, find peace in the end

Chorus

A gorgeous land (4x)

Instrumental

A gorgeous land (4x)

Chorus

Better Time

We could sing together
All that we will never see either
And all the people we will not
Meet any more

Chorus:

Was it really a better time before
Were our minds really so fine
Was that really a better time
I don't know

You could be my love, I say
If I had met you earlier
In another world which would be less
Predictable

Chorus

My brain hurts me
I can't say why
My brain hurts me
I can't say why

Chorus

Thinking back on it all
I don't know if I fall (4x)

Conscious of Loneliness

I am not really free in my head
Understand what I've said?
I'm as lost as you, and I'm waiting
Like the tune in a song

You were like an hidden tree
In the forest, a forest of people
I'm as lost as you and I hope
That you could say to me:

Chorus:

Would you give me your hand
'cos you cannot say "come on"
Would you give me your hand
But how do you not understand

I am not really free in my head
Understand what I've said?
I'm as lost as you, and I'm waiting
Like the tune in a song

Chorus:

Would you give me your hand
'cos you cannot say "come on"
Would you give me your hand
But how do you not understand

Would you give me your hand
'cos you cannot say "come on"
Would you give me your hand
But you don't say anything

Instrumental

Now I am conscious of loneliness

Chorus

Lost Dreams

Here we came, mother
Then we took a plane
Just Liz and me

Here we danced, sister
Far away from our fame
Far away from where we came

Chorus:

In the snow of Montreal
I was watching over you
All lost dreams together
The cold hard wind on my face

We did some fishing
On Windigo lake, brother
Just Tom and me

We defied the storm
On a motorbike, father
The rain in my misted eyes

Chorus

Instrumental

Chorus

The Other Side

If the sea should cover me
Finally, what would I see

You and me, are we really free
Follow me, just come and see

We could see our life and the past
We could see the other side
(2x)

If the sea should cover me
Finally, what would I see
You and me, are we really free
Follow me, just come and see

You and me, are we really free
Follow me, just come and see

We could see our life and the past
We could see the other side
(2x)

If the sea should cover me
Finally, what would I see
You and me, are we really free
Follow me, just come and see

We could see our life and the past
We could see the other side
(2x)

Memento Mori

Today my son asked a question
He said: "is it true father?
Here we have never fallen?
Here we will never die?"

Thinking about it and wondering
I watched the trees reaching for the light

If nobody wants to think about
I hurry, I run and I shout
And I don't forget either
The saying "Memento Mori"

Thinking about it and wondering
I watched the trees reaching for the light

Chorus:

I don't know what to say
I hurry, I run and I sing
I don't know how to answer
I hurry before leaving
(2x)

Today my son asked a question
He said: "is it true father?
Here we have never fallen?
Here we will never die?"

Thinking about it and wondering
I watched the trees reaching for the light

Chorus:

I don't know what to say
I hurry, I run and I sing
I don't know how to answer
I hurry before leaving
(2x)

Present Happiness Makes Tomorrow's Regrets

Present happiness
Makes tomorrow's regrets
(6x)
